

Spark SC - Board of Advisor Agreement

Spark SC is entering its fourth year and we have begun to reflect on the dozens of initiatives we've held to inspire entrepreneurship at USC. The mission of Spark SC is to **inspire a culture of innovation, expose students to their creative potential, and connect makers across diverse communities**. Whether we are assembling a career fair for local Los Angeles startups, holding a Makeathon for women engineers, or setting the standard for student-led classes at USC, our efforts in exposing, inspiring, and connecting students have become a staple of USC's community and culture.

The kindness and mentorship from faculty and industry professionals make so much of what we accomplish possible. **Unfortunately**, many of these connections dissolve as students that forged them graduate or move on from leadership positions in Spark SC.

Thus, we have created the Spark SC Board of Advisors, a group of the best and most experienced faculty and professionals invested in the success of this club, and largely, the creative potential of USC students.

We understand the incredible commitments our advisors hold elsewhere. We ask for nothing more than for our advisors to be open to communication with the leaders of Spark SC—the “Core Team” as we call it—and to support our diverse range of initiatives with resources and mentorship.

With this in mind, we would be honored if you chose to join **Spark SC's Board of Advisors**. To accept, please sign this document and return it to Ben Stanfield.

We are excited to work with you in the future, and cannot thank you enough for what you have already contributed to the success of Spark SC.

Sincerely,
The Spark SC Family
